

The 28th EAROPH World Congress 2022

Surabaya, Indonesia
October 5-8th, 2022

EAROPH

World Congress

The Future of Human Settlements : Accelerating Recovery and Ushering into a New Era of Sustainable Urbanisation Post-Covid 19

The 28th World Congress of the Eastern Regional Organization for Planning and Human Settlements

Shangri-La Hotel
Surabaya, Indonesia
October 5-8th, 2022

Congress Objectives and Philosophy

The main theme of the Congress is the impact of population change related to climate management and the associated issues that are being debated at an international level including infrastructure planning, water security, renewable energy and sustainable tourism. The conference aims to draw these themes together to debate their impact on the Asian Pacific rim. The key purpose of the conference will be to focus on the various opinions presented by international speakers in a forum that allows for policy directions coming from the Congress to be directed to the EAROPH Executive, the stakeholders and all spheres of Government within the region.

The Congress consists of the following sub themes:

- Future Cities and Post Covid-19 Planning Program
- Integrating Disaster Risk Mitigation in Urban and Regional Planning
- Post Covid-19 Economic Recovery Acceleration Initiatives : Human Settlement Perspective
- Sustainability Aspects in Urbanisation and Human Settlements

About The Program

The Congress will include the following components:

- Welcome Reception
- Two days of presentations and workshops
- Half day of field visits and tours
- Congress Dinner
- Exhibitions
- Asean Mayors Forum: Leadership for Change
- Young Professional Forum
- Jatim Fair as East Java Flagship Economic Development Initiative

Asean Mayors Forum

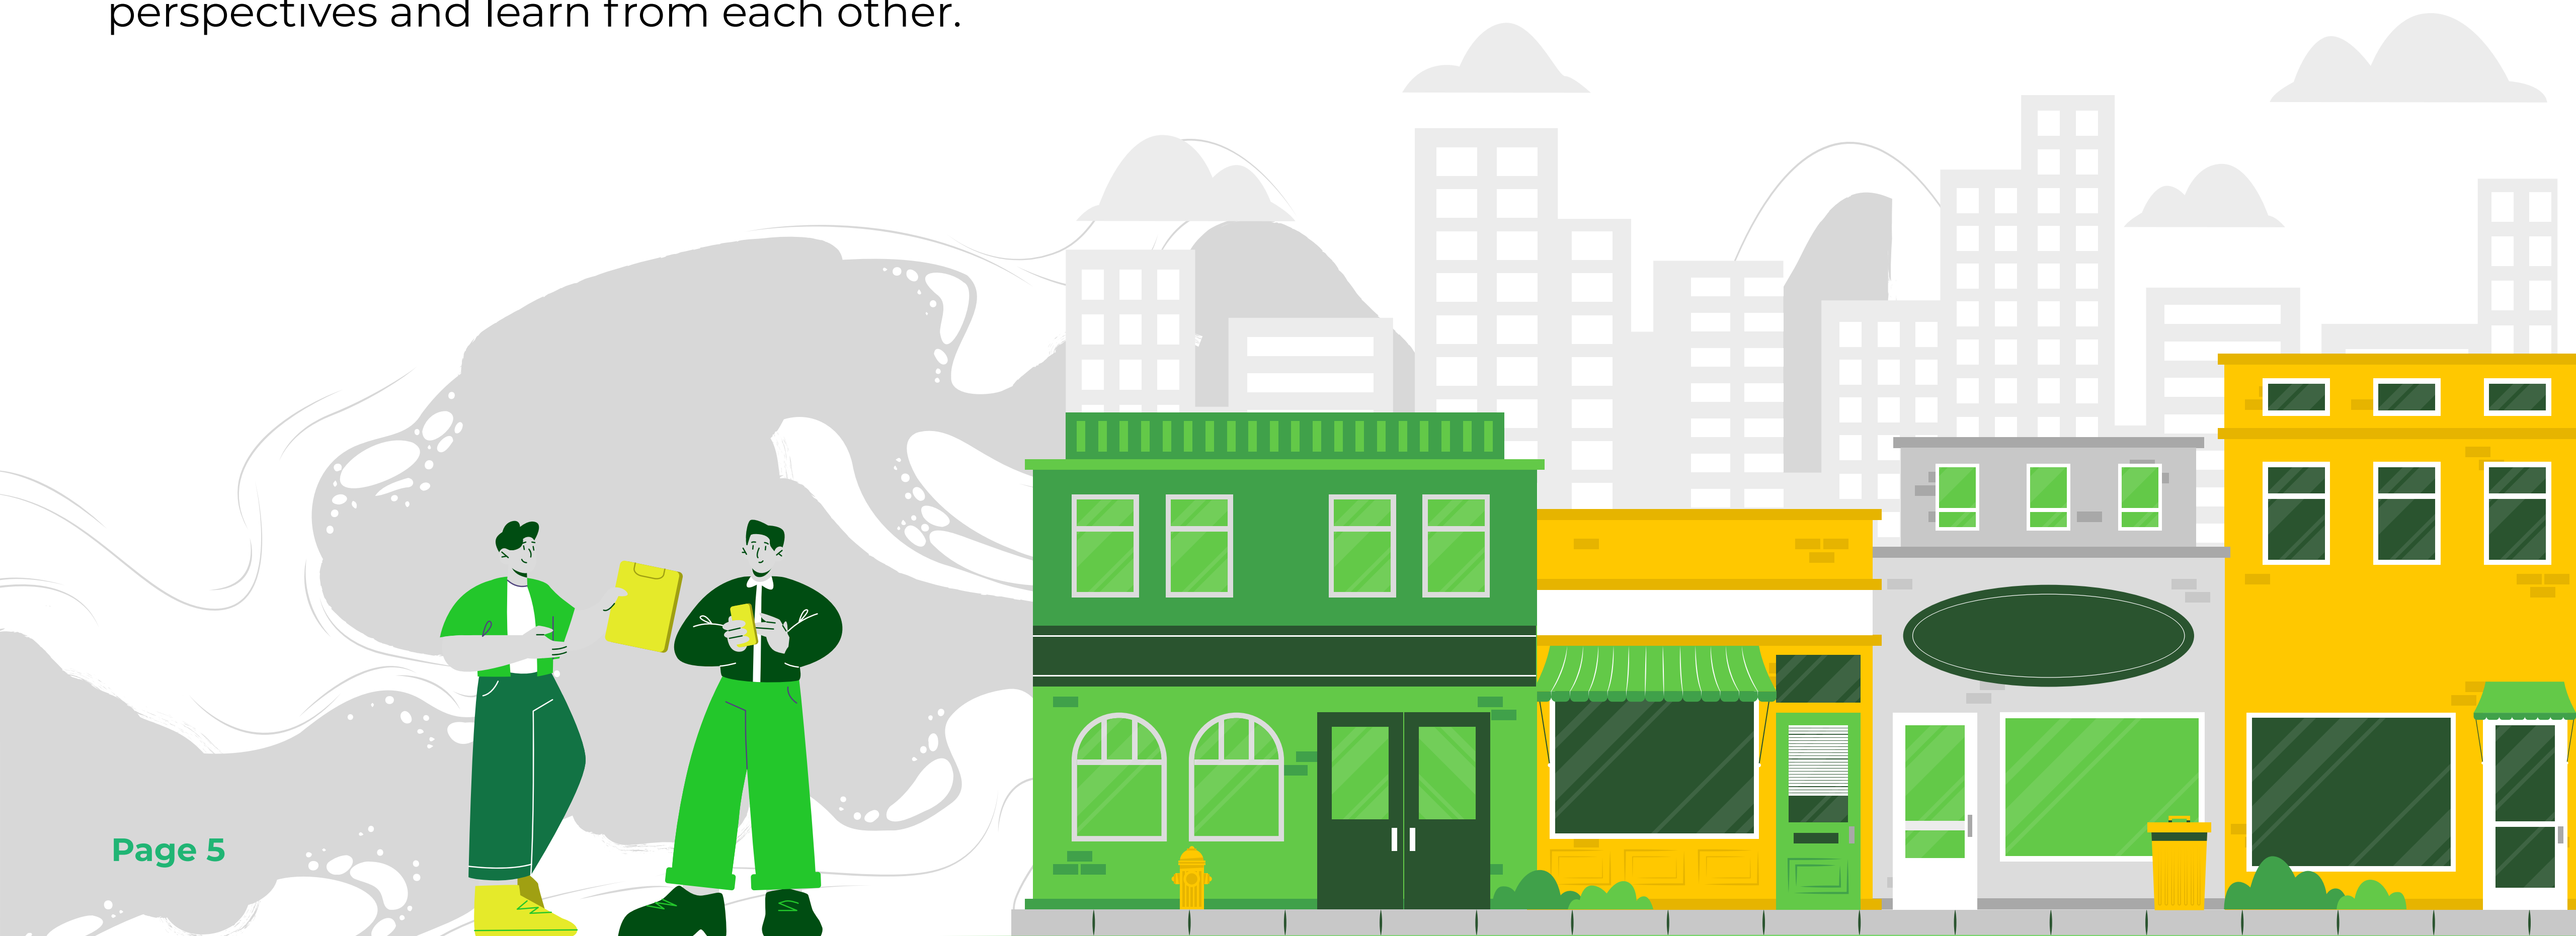

Since its initial establishment in 2011, Asean Mayors Forum (AMF) has been promoting sustainable peace, forming co-operations, enhancing friendly relations, and providing a common ground for sustainable development of all ASEAN cities. This Forum has become a platform for ASEAN cities leaders and officials to promote collaboration among ASEAN Member States and has published declarations since the first AMF in 2011. In 2018, AMF received accreditation from the ASEAN Secretariat as one of the affiliated entities of ASEAN (included in ANNEX 2 of the ASEAN charter).

The AMF Secretariat is handled by the United Cities and Local Governments Asia Pacific (UCLG ASPAC), under the Southeast Asia Standing Committee. The Secretariat promotes cooperation between local governments and the broader ASEAN region through advocacy, capacity building, training, research, knowledge management, project development, and management.

Given the scale and impact of the pandemic, ASEAN recognises that addressing this unprecedented crisis requires unprecedented actions within the region and outside. This is where strong coordination and cooperation among ASEAN, its stakeholders, and external partners becomes important. Highlighting the urgency of “Addressing Challenges Together” post-pandemic and realising a sustainable future, UCLG ASPAC as ASEAN Mayors Forum (AMF) Secretariat, in cooperation with the Provincial Government of East Java, is organising the ASEAN Mayors Forum (AMF) Consultation Meeting on 6th and 7th October 2022 in Surabaya, back-to-back with the Eastern Regional Organisation for Planning and Housing (Earoph) World Congress 2022. This AMF Consultation Meeting will be held prior to the AMF Summit to be organised in Cambodia as the Chairman of ASEAN 2022 in mid-November 2022.

Young Professionals Forum

The objective of this forum is to provide a platform for young professionals to raise issues and concerns related to congress themes. The guest speakers will include those delivering keynote addresses to the Congress. The forum will be facilitated to enable young professionals to focus on the topics from their perspectives and learn from each other.

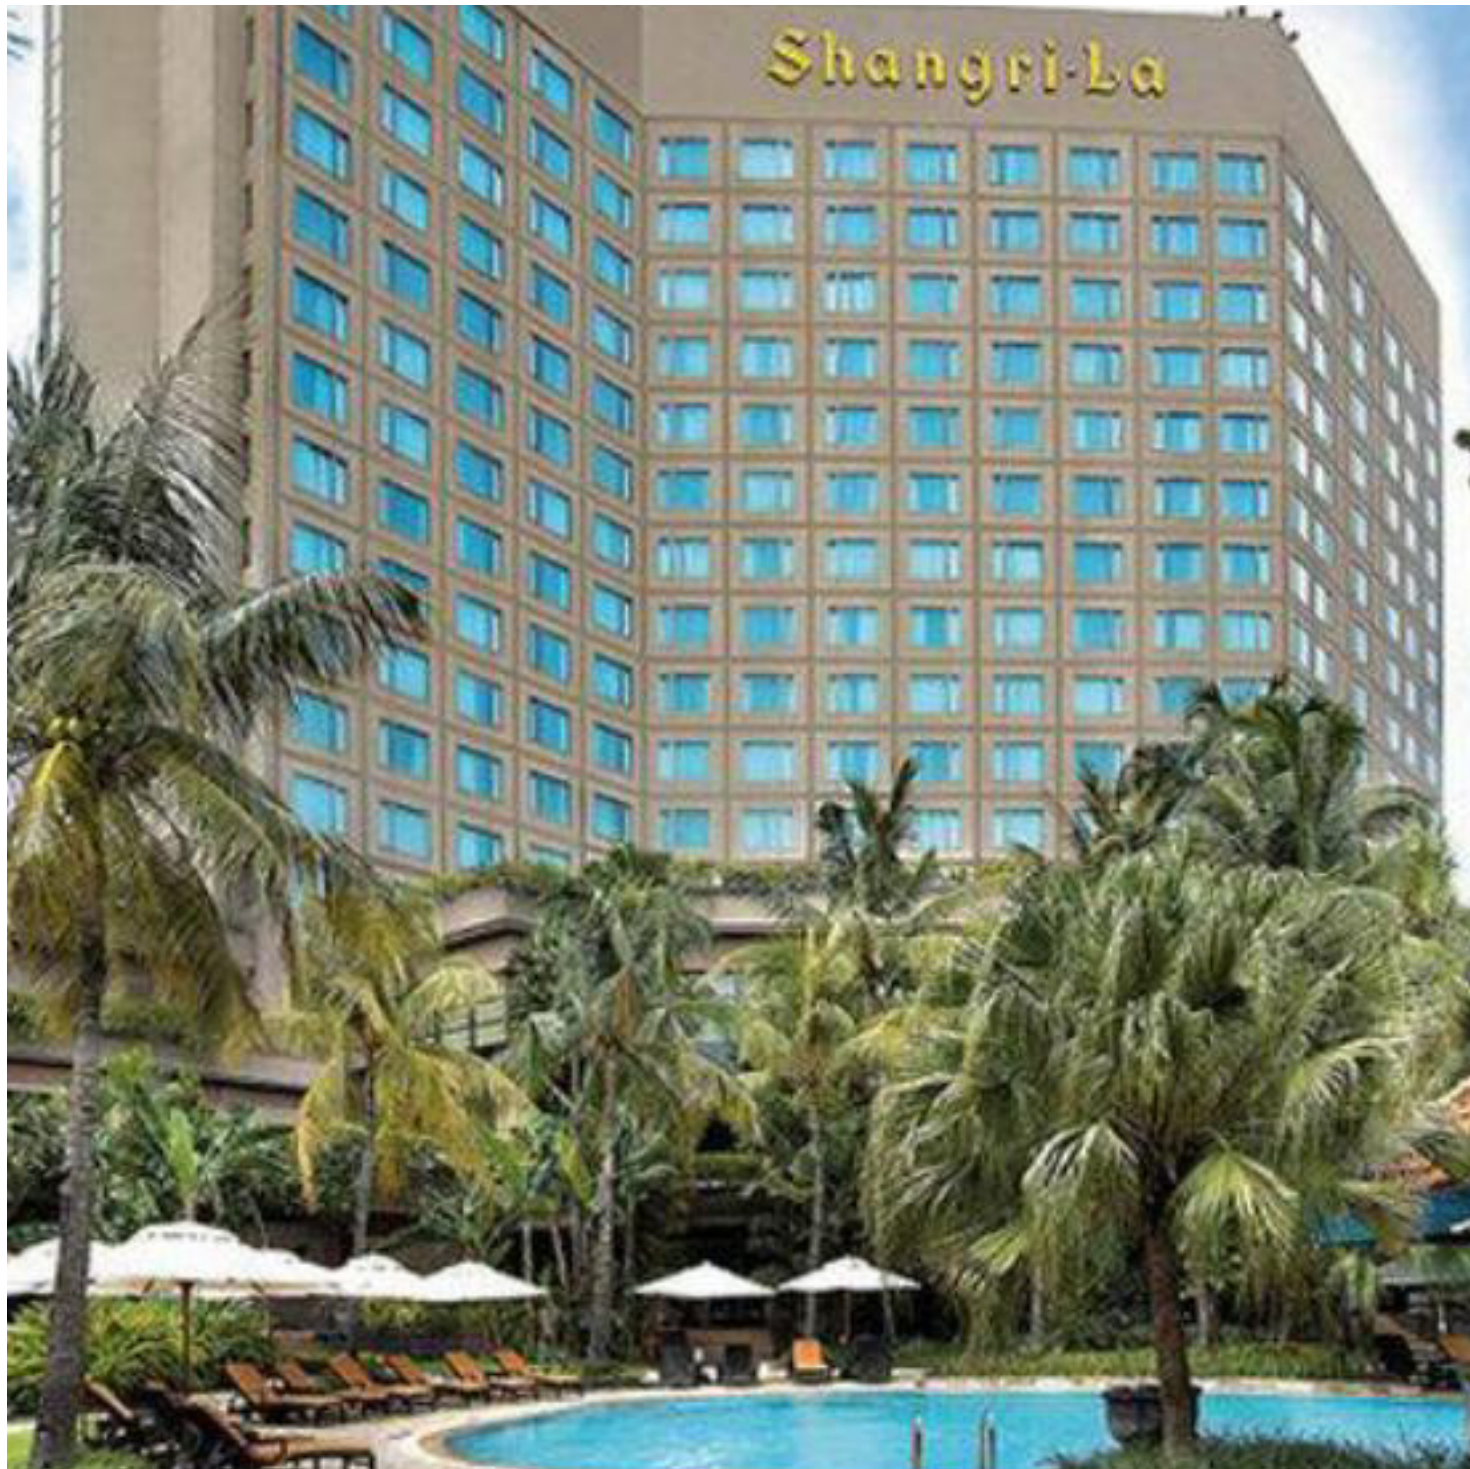

Field Trip

The study tour to JIPE Gresik will be conducted on October, 8th 2022, JIPE has been designated as Indonesia Special Economic Zone (SEZ) by the President of Indonesia in 2021. It provides superior connectivity with multimodal transportation, connected deep seaport, one-stop center with complete utility, environmental permit, and fast construction permit.
